

Douglas R. Albright III

Mill Creek, WA | dr@signalstudios.net | [website](#)

Senior Game Development Executive | Creative Director | Studio Founder

A dynamic and entrepreneurial video game industry veteran with over 25 years of experience guiding the creative development, production, and business strategy for profitable software and intellectual properties. Proven success in founding and scaling a studio, securing multi-million dollar funding, and leading the full lifecycle of game development from concept to launch. Contributed to over 20 AAA titles, including flagship franchises such as *Need for Speed*, *Medal of Honor*, and *SOCOM*. Creator of the award-nominated, multi-million selling *Toy Soldiers* franchise. Now seeking a senior role to apply extensive experience in game development, studio management, and creative leadership to new challenges in traditional games, AI integration, or web-based projects.

- Creative Studio Management
- Creative Project Management
- Publisher Partnership
- 3D & 2D Development
- AI Development and Integration
- Proprietary Engine Development
- Art Tools & Techniques
- Concept to Release

Professional Experience

Founder, President & Creative Director | Signal Studios | Seattle, WA | 2007 – 2023

Founded Signal Studios to capitalize on emerging digital distribution platforms, growing the company from a bootstrapped startup of 3 to a multi-project studio of 55 employees with over \$40 million in total revenue.

- Conceived, created, and directed the studio's flagship IP, **Toy Soldiers**, leading to over 3 million units sold, 15+ million downloads, and two D.I.C.E. Strategy Game of the Year nominations.

- Secured over \$25 million in project funding by creating business plans and delivering presentations, and negotiating partnerships with industry leaders including Microsoft, Ubisoft, Facebook (Oculus), GungHo, IGT, and Tilting Point Media.
- Directed all aspects of the business, including strategic and creative vision, product roadmap, P&L, finance, HR, legal, marketing, and licensing.
- Successfully conceived, funded, and launched 8 original titles across PC, console (Xbox, PlayStation, Nintendo), and mobile platforms, utilizing various business models.
- Led technical, design, and visual development using both a proprietary engine (Sig Engine) and industry-standard tools like Unity and Unreal Engine.
- Spearheaded studio support for emerging technologies, developing for Oculus VR, Kinect, Microsoft's Smart Glass, and IGT's Ascent casino platform.
- Guided the studio to be named one of the "Top 30 Game Studios in the World" by *Game Developer Magazine* in 2010.

Early Career: Lead & Senior Artist Roles | EA | Snowblind | Zipper | THQ | 1999 – 2007

Held progressively challenging creative and leadership positions at top-tier publishers and developers, contributing to the production of over 15 video game titles and major franchises.

- Managed creative pipelines and art teams, contributing to world-building and asset creation for iconic franchises including **Need for Speed**, **Medal of Honor**, and **SOCOM**.
- As Lead Artist at **THQ**, played a key role in establishing the new Seattle studio, where responsibilities included recruiting the art team, defining the studio's visual identity, and managing the art production process and schedule.
- At **Snowblind Studios**, worked directly with the lead programmer to develop the next-generation licensable Snowblind Engine (s2) for Xbox 360, PS3, and PC, establishing art tools, pipelines, and technical documentation.
- Mentored junior artists, managed art personnel on next-gen projects, and recommended tools and technologies to improve creative pipelines across multiple studios.

Technical Proficiencies

- **Game Engines:** Unity, Unreal Engine, Proprietary
 - **3D/2D Software:** Autodesk, Adobe Suite, Reallusion Suite
 - **Programming & Web:** C#, JavaScript, TypeScript, HTML/CSS,
 - **Development Tools:** Git, Visual Studio Code, Perforce, JIRA, Plastic SCM, Cursor, Gemini, Ollama, MCP, AGENT
 - **Platforms:** Xbox, PlayStation, Nintendo, PC, Steam, Mobile (iOS/Android)
